JOURNEY TO ACCRA (JTA)

This is the first ever body of work in over a decade of ENE Yatt's career. They had to take their time to put this piece together, as this project means a lot to them. ENE Yatt has been planning and wanting to do this for years now. They took their time to find the right sounds to put out, which was a lot of work. This body of work is a Reflection of ENE Yatt's life, as it describes the journey from Nigeria to Ghana just to make this music. It has been an amazing experience.

"Every song on this body of work speaks for itself. It's all self explanatory as we believed we had to put out something that everyone would love. This project was made to satisfy everyone, the songs are all a bit different so just listen to the project and pick your favorite. With this project you can never get bored, get your dancing shoes on and go stream that JTA EP Today. You are welcome to our journey to Accra" (JTA). - ENE Yatt
